

COMPOSILITE® FX provides big performance in a compact, lightweight design

Rugged Reliability in a Compact Design

COMPOSILITE® FX maintains the rugged reliability you've come to expect from Hendrickson; now available for truck and trailer applications.

FXT Truck

COMPOSILITE FX provides the features and benefits of the steerable COMPOSILITE SC suspension system

- 13,500-pound capacity for truck and trailer applications
- Lightweight fabricated axle
- Compact package improves installation for tight frame space availability
- Common components between the FX and SC model allow common use on same vehicle
 - Hendrickson integrated 15 × 4-inch brakes
 - Zero-torsion bushings

COMPOSILITE® FX Features and Benefits

Parallelogram Beam Design

- Allows lift and ride bags to open and close vertically and horizontally to enhance life cycle and reduce replacement
- Lift plates remain parallel for longer air spring life

In-line Air Springs

- Minimizes package space and helps reduce the risk of possible driveline interference

FXW Trailer

Lightweight Axle

- Reduces suspension weight and maintains durability with increased wall thickness for both pusher and tag applications

Hendrickson Integrated Brakes

- 15 × 4-inch brake components, readily available for quick and easy maintenance
- Same integrated components as COMPOSILITE SC platform of suspensions

SPECIFICATIONS

	TRUCK	TRAILER
Suspension Capacities	13,500 lbs.	13,500 lbs.
Weight	930 lbs.	905 lbs.
